

General Education Goals and Objectives (GEGOs)

1. A liberally educated graduate communicates effectively.
 - a. Gives clear presentations before a group.
 - b. Writes papers that require locating, analyzing, and formally referencing information sources to support conclusions.

2. A liberally educated graduate thinks critically.
 - a. Makes claims and draws conclusions that require the analysis and evaluation of evidence.
 - b. Synthesizes divergent content, methodologies, and models.
 - c. Makes and assesses ethical judgments.
 - d. Demonstrates an awareness of different points of view and analyzes how these are informed by factors that may include culture, ethnicity, race, socioeconomic status, gender identity, age, disabilities, language, religion, sexual orientation, or geographical area, among others.

3. A liberally educated graduate uses quantitative methods effectively.
 - a. Solves problems using mathematical methods.
 - b. Interprets, makes inferences, and draws conclusions from data.
 - c. Determines whether numerical results are reasonable.

GEGOs (continued)

4. A liberally educated graduate has developed a wide range of intellectual perspectives and methodologies.
 - a. Evaluates the workings of the natural and physical world using theories and models that can be tested by experiments and observations.
 - b. Evaluates social science theories and research methods related to questions of human behavior, mental processes, communication, social and cultural structures, and institutions.
 - c. Evaluates philosophical, historical, and aesthetic arguments, evidence, and artifacts.
